

Career Counseling Test

Candidate Details

Name :	Arun R
Age :	
Gender :	
Mobile :	8965231478
Email :	arunranjith2002@gmail.com

Disclaimer:

- This report is highly confidential and may not be read by any individual unless permitted by the person tested.
- This test should be read only in presence of trained professional.
- Profiles can change with experience and roles.
- This test is valid up to six months from the date of testing.
- Test results should be used for career guidance only and not for any other reasons or occasions.
- Results are based on the candidate's response to the assessments.

Address : Aptimind Counselling , Ashok Nagar, Chennai.

Mobile : +91 81110 31030 **Website :** www.counselingchennai.com

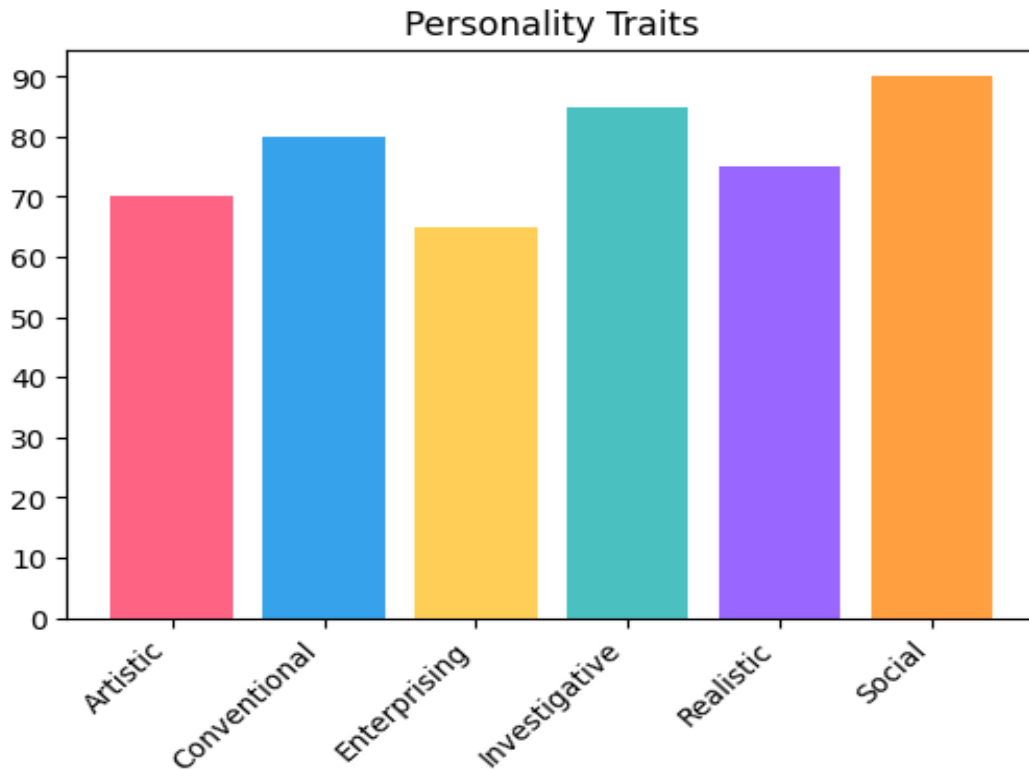

About Test:

- Generally career guidance happens through media hype, peer influence, market trend and child's fancy because of which people may be dissatisfied with the course / career path they choose.
- Scientifically career guidance has to happen by considering the internal factors - Skills, Career Interest and Career Personality Traits and external factors such as Family values, Scores in the eligibility subjects and Career Information.
- This test measures the internal factors and helps you choose the right subjects / career path.

Career Test Report

Personality Trait Scores

S.No	Dimension	Raw Score
1	Artistic	70
2	Conventional	80
3	Enterprising	65
4	Investigative	85
5	Realistic	75
6	Social	90

Area of High Career Personality Traits:

Social: People with the Career Personality Traits are more cooperative, supporting, helping and healing/nurturing. They like working in cooperative environments to improve the lives of others.

Realistic: A Career Personality Traits related to being practical, physical and suitable to work with plants and animals, and outdoors activities.

Area of Medium Career Personality Traits:

Enterprising: People with this Career Personality Traits are suitable to work in competitive environments, has leadership qualities and are persuading. They like working in positions of power to make decisions and carry out projects.

Artistic: It is Career Personality Traits of being creative, original, independent. Such people like working in unstructured environments and producing something unique.

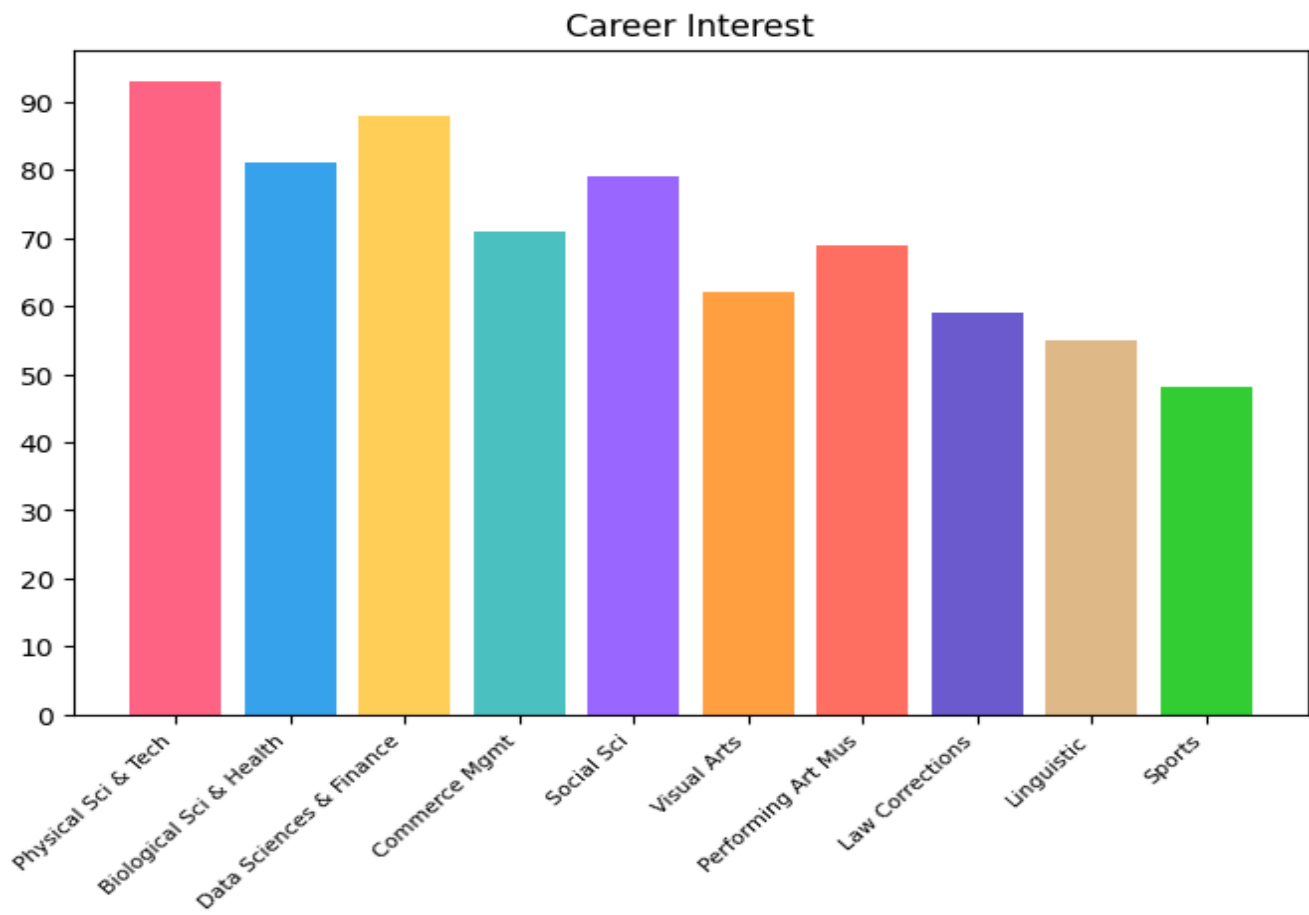

Area of Low Career Personality Traits:

Investigative: This Career Personality Traits involves being analytical, scientific and explorative. People who are high in this would enjoy working with ideas and concepts.

Career Interest

Career Interest Profile

S.No	Dimension	Raw Score
1	Physical Sciences & Technology	93
2	Biological Sciences & Health	81
3	Mathematical Data Sciences & Finance	88
4	Commerce & Management	71
5	Social Sciences	79
6	Visual Arts	62
7	Performing Art & Music	69
8	Law & Corrections	59
9	Linguistic	55
10	Sports	48

Area of High Interest:

Visual Arts: A preference in this area indicates that you want to use your imagination and express yourself through art which is appreciated by sight, such as painting, sculpture, and film-making.

Commerce & Management: If this is your highest preference, you will be motivated by the chance to earn your living your own way or by coordinating the activities of someone else's business.

Sports: If this is your highest preference, you want to be involved in sports or related activities.

Mathematical Sciences & Finance: This area provides you with the opportunity to acquire knowledge and to analyse results. This interest provides you the opportunity to enjoy observing, recording and making deductions with numbers or any other data.

Area of Medium Interest:

Social Sciences: A high score in this area reveals how much you are concerned with society and the relationships among individuals within a society.

Physical Sciences & Technology: This shows you are interested in the sciences concerned with the study of the inorganic world, including physics, chemistry, astronomy, and their practical applications in terms of Technology.

Performing Arts & Music: A preference in this area indicates you want to be involved in the form of art in which artists use their voices or bodies, often in relation to other objects, to convey artistic expression or using musical instruments.

Biological Sciences & Health: This interest shows you want to study living organisms, including their physical structure, chemical composition, function and development and their practical applications in improving health of people.

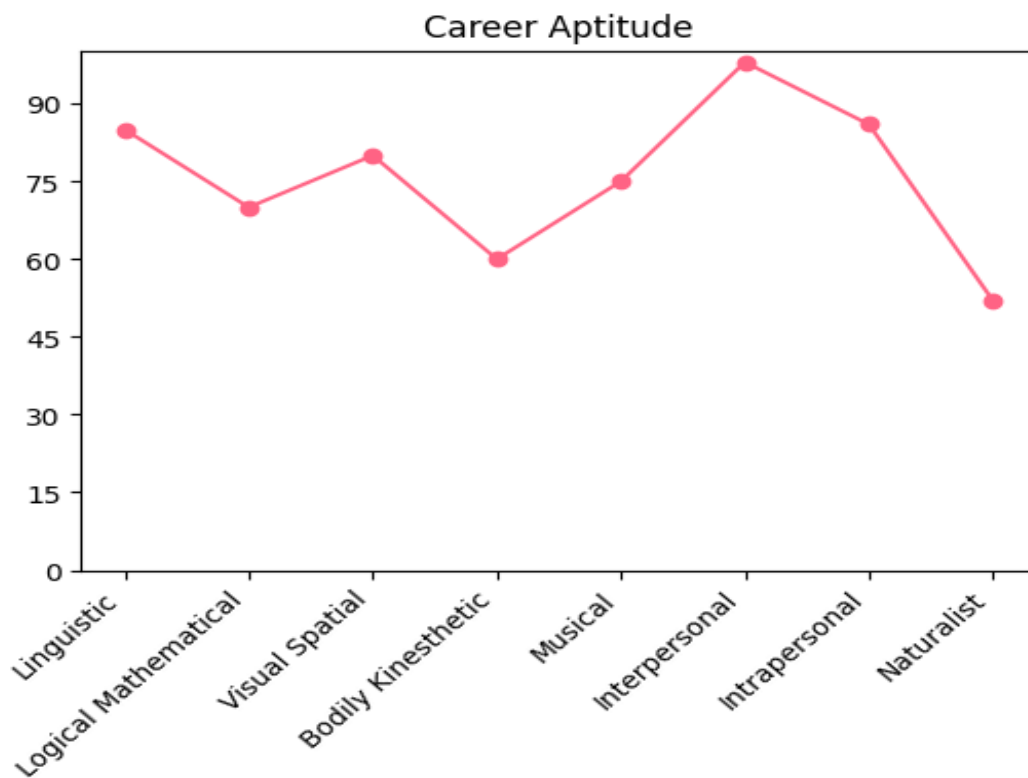

Area of Low Career Interest:

Linguistic: A low interest in this area suggests you are less inclined to make the business of words your primary professional tool.

Law & Corrections: A low interest here indicates lesser inclination towards working within systems of legal rules or correcting behavioral issues.

Career Aptitude Scores

S.No	Dimension	Raw Score
1	Linguistic	85
2	Logical Mathematical	70
3	Visual Spatial	80
4	Bodily Kinesthetic	60
5	Musical	75
6	Interpersonal	98
7	Intrapersonal	86
8	Naturalist	52

Area of High Skill:

Interpersonal: Those with high interpersonal intelligence communicate effectively and empathize easily with others, and may be either leaders or followers. They often enjoy discussion and debate.

Bodily Kinaesthetic: The core elements of bodily-kinesthetic intelligence are control of one's bodily motions and the capacity to handle objects skillfully.

Naturalist: This area has to do with nurturing and relating information to one's natural surroundings.

Linguistic: People with high verbal-linguistic intelligence display a facility with words and languages. They are typically good at reading, writing, storytelling, and memorizing words along with dates.

Area of Medium Skill:

Intrapersonal: This area has to do with introspective and self-reflective capacities. It refers to having a deep understanding of the self—what one's strengths or weaknesses are, what makes one unique, and being able to predict one's own reactions or emotions.

Logical-Mathematical: This area involves logic, abstractions, reasoning, numbers, and critical thinking.

Area of Low Skill:

Visual-Spatial: This area deals with spatial judgment and the skill to visualize with the mind's eye. Those high in this intelligence can think in terms of physical space.

Musical: This area has to do with sensitivity to sounds, rhythms, tones, and music. People with high musical intelligence normally have good pitch and may even have absolute pitch; they can sing, play musical instruments, compose music, and have sensitivity to rhythm, meter, tone, melody, or timbre.

Health	High	Medium	High
Hospitality	High	High	High
Individual Sports	High	High	High
Languages & Literature	Medium	Low	High
Law	Medium	Low	High
Mathematical - Data Sciences & Finance	High	High	Medium
Merchant Navy & Aeronautics	High	Medium	High
Performing Arts	Medium	Medium	High
Physical Education	High	High	High
Physical Sciences & Engg./Tech	Low	Low	Low
Politics	Medium	High	High
Social Sciences	High	Medium	High
Teaching	High	Medium	High
Team Sports	High	High	High
Visual Arts	Medium	High	Low

Please meet the counselor with the report in person or through Whatsapp video call. Please fix appointment by whatsapping @ 9840924035

Your most suitable career paths where all three criteria – Skills, Career Interest and Career Personality Traits are matching to the career path

In case you want to choose the career path where one of the 3 criteria is not high, try to improve the missing one to make the path successful. In case of skills being low or medium, please go for training and improve your knowledge/skills. In case of career interest being low or medium, please take some more exposure from the people who are in the career path/field. In case of Career Personality Traits being low or medium, please go model your personality from the role models in the path/field or go for further counselling if needed

Important Attitudes to be imbibed

- Let learning happen continuously. Keep updating yourself.
- Keep an eye on current trends and talk to as many people who belong to the chosen field as possible.
- Do not compare with others. Every individual is unique.
- It may take time to succeed. Wait patiently
- Be in touch with your authentic feelings.
- Once you have chosen something, be responsible for your choice.
- If you could not choose the one which you are suitable very much, please do it as an active hobby. Later you may make it as a career or you may use it in your career in some aspect. Otherwise you will think that something is missing in your life.

Myths

- There are certain jobs/careers/course which are superior than others.
- This is a competitive world
- Only if I study in the Best College/Institution, I will be successful
- I should be able to predict my success in my career now itself
- There are certain careers which are always highly paid
- Only certain jobs are suitable for Men/Women.
- I need to settle well in a career soon immediately after completing my education.

Facts

- No Course/Group/Career is inferior or superior. All careers are great and equal
- All careers help the society to function smoothly.
- All courses have scope and job opportunities provided you are compatible with the course on the internal and external factors.
- It is not a competitive world. Everyone has the space to live peacefully.
- Everybody is intelligent in one way or another.

All the best! ■
